

## Profile Summary

**Power BI Developer** professional over all 3.3 Years experience in IT Industry, including 1.3 year of experience in software testing and having around 2 years of experience as a Power BI Developer.

## Skills

- |                              |                        |
|------------------------------|------------------------|
| • <b>Power Bi</b>            | • <b>DAX Query</b>     |
| • <b>Analytical Function</b> | • <b>Data Analysis</b> |
| • <b>MS Excel/MS Word</b>    | • <b>Power Point</b>   |
| • <b>SDLC</b>                |                        |

## Work History

### Software Engineer, June 2021 – May 2023

Codiant Software Technologies, Indore.

### Roles and Responsibilities:

- During the project life cycle, participating in requirement collection and technical analysis
- Power BI reports were created using SQL server. I worked with team to setting up the cost Effectiveness of different works.
- Worked on the Power Bi reports and dashboards with Excel and SQL Server.
- Used Tables, Bar, Card, Gauge, Slicer's visualizations
- Worked on DAX expressions like filters, Aggregate, Mathematical Functions etc.
- Created New Calculated Column and Measure using DAX Expression.
- Developed custom visual reports, dashboards and KPI scorecards using Power BI desktop.
- Able to properly understand the business requirements and develop data models accordingly by taking care of the resources. Verifying work of all process engineer and share those responsibility.
- Comfortable in working with filters/calculated columns/measures/relationships and transformations of Edit Query section.
- Published/shared the reports.
- Worked on On-Premises Gateway to refresh the data sources

### Project Handling Experience:

- The main area of my work has been in Data Transformation, Data Modelling, Creating Reports, Dashboards and DAX Programming.
- Developed custom visual reports, dashboards and KPI scorecards using Power BI desktop.
- Created queries using DAX functions in Power BI desktop.
- Created Queries using Joins, Union vs Union all, Minus and except in SQL server.
- Expertise in using advanced level calculations on the data set.
- Able to properly understand the business requirements and develop data models accordingly by taking care of the resources. Verifying work of all process engineer and share those responsibility.

- Develop and deploy dashboards, visualizations and autonomous and dynamic reporting interfaces to be distributed to stakeholders via the BI reporting platform, web portal, mobile, tablet devices, widgets and email.
- Optimize report distribution, execution and the scalability of all reporting solutions so they are autonomous and dynamic.
- Work with the Data Management team to provide input on logical and physical database design, data modeling and/or mapping.
- Attend stakeholder business requirement meetings to understand the process flow.
- Assist in establishing and refining standards for enterprise reporting.
- Work with various Team Members, internal departments and third-party agencies on report business requirements, documentation, timelines, testing, and technic delivery Maintain existing and future report distributions.
- Perform troubleshooting and provide resolutions to reporting issues

#### **Project Tasks and Accomplishment:**

- Imported data from SQL server
- Data refreshing
- Explore data in a variety of ways and across multiple visualizations using Power BI to visualize reports.
- Created Dax Queries to generated computed columns in Power BI, financial formulas as it is a financial report
- Published Power BI Reports in the required originations and Made Power BI Dashboards available in Web clients
- Published reports and dashboards using Power BI.
- Scheduled Automatic refresh and scheduling refresh in power bi service

#### **Analyst, Feb 2020 – May 2021**

Cloudwapp Technologies, Indore.

#### **Roles Responsibilities:**

- Preparing test cases based on the functional document received.
- Find issues and logged all the on Mantis and assign to the developers.
- Retest all issues that is assigned by developers.
- Involved in Installation, Functional, Regression Testing, UI Testing.
- Interacting with the developers to make sure that they have understood the Issues.

#### **Project**

---

- **Client – A Online shopping site**
- **Project Description:** The project was to build multiple Reports from SQL server database and implementing business logic meanwhile, also optimizing the performance of the report.

## Education

---

- **Master of Engineering** with specialization in Computer and Science Engineering from Sushila Devi Bansal Collage of Engineering, Indore.(2020)
- **Bachelor of Engineering** with specialization in Computer and Science Engineering from Indore Institute of Science and Technology, Indore.(2015)

## Personal Details

---

- Date of Birth : 27 November 1993
- Marital Status : Single
- Languages Known : English, Hindi
- Address : 141/E Prajapat Nagar, Indore

## Declaration

---
