## CAREER OBJECTIVE

Highly skilled Mean-Stack developer with extensive experience in web and desktop applications, targeting opportunities in the automotive or IT industry to leverage expertise in Angular framework, ReactJS, and IoT applications development.

## KNOWLEDGE PURVIEW

- Angular Framework
- ReactJS Development
- JavaScript Programming
- CSS/3 Design
- HTML/5 Development
- NodeJS
- Java-based IoT Applications
- Android Development
- Microcontroller Integration
- PHP and MySQL DB Management
- MongoDB Administration

## TECHNICAL SKILLS

- Language:** C, C++, Core Java
- FrontEnd:** Angular Framework, React JS Basics
- BackEnd:** NodeJS
- Databases:** MySQL, MongoDB
- Tools & IDE:** Eclipse, Microsoft Visual Code
- Web Technologies:** HTML, CSS, JavaScript, AngularJS, PHP, node.js, Typescript
- Operating system:** Windows, Mac

## SOFT SKILLS

- Analytical
- Problem-solving
- Communicator
- Critical Thinking
- Time management

## EDUCATION

- Bachelor's Degree in Computer Science & Engineering from CMRIT, Bangalore (2017)

## PERSONAL DETAILS

**Date of Birth** 4<sup>th</sup> April 1994

**Languages Known** English, Hindi

## PROFILE SUMMARY

- Offering over 6+ years of comprehensive experience in building web and desktop applications, specializing in **Angular Framework, ReactJS, NodeJS and IoT applications** development across various industries
- Presently employed as a **Software Engineer at Expleo Technologies India Pvt. Ltd.**, responsible for the development, deployment, and maintenance of web applications using Angular framework in JavaScript and NodeJS
- Proficient in creating responsive web-based applications utilizing **Angular framework, ReactJS, JavaScript, CSS/3, and HTML/5**, along with expertise in developing IoT applications using Java, Android, and Microcontroller
- Exhibiting a strong command over database management with **PHP, MySQL DB, and MongoDB**, as well as programming languages such as C, C++, Core Java, Selenium for Automation Testing, and Junit for Unit Testing
- Possessing excellent collaboration and mentoring skills, working closely with cross-functional teams to ensure successful project delivery and providing guidance to junior developers

## WORK EXPERIENCE

### Expleo Technologies India Pvt. Ltd. (Sep 2017 - Present) Software Engineer (Fulltime)

#### Key Result Areas:

- Developing, deploying, and maintaining web applications based on the Angular framework in JavaScript, ensuring adherence to best practices and coding standards for optimal performance
- Utilizing NodeJS, Angular framework, ReactJS, JavaScript, CSS/3, and HTML/5 to create responsive web-based applications, catering to diverse client requirements
- Designing and implementing IoT applications using Java, Android, and MicroController, enhancing the overall functionality and user experience
- Managing databases with PHP, MySQL DB, and MongoDB, ensuring seamless data storage and retrieval

#### Achievements:

- Collaborated effectively with cross-functional teams, contributing to the successful delivery of multiple projects
- Conducted thorough testing and debugging, ensuring high-quality deliverables and minimal post-deployment issues
- Actively participated in code reviews, providing constructive feedback to team members and fostering a culture of continuous improvement
- Assisted in the training and mentoring of junior developers, sharing knowledge and expertise to enhance team capabilities

## PROJECTS

### ZEWS (Web Application used to Manage the concession):

#### Key Result Areas:

- Developed a user-friendly web application for managing concessions, enabling users to create and review concessions based on different roles
- Streamlined the concession management process by implementing features such as prequalification and sign-off

### AVP (Web Application used to Manage the Parking Slots and Booking Related Info):

#### Key Result Areas:

- Designed and developed a web application for efficient parking management, allowing users to book parking slots and track bookings in real-time
- Enhanced user experience by providing a seamless interface for managing parking slots and booking-related information
