EXPERIENCE

2023 KATHA NGO

- Creating landing pages for various websites
- Worked on 4 Websites using Modern UI concepts
- Handled Databases, fixes bugs

PROJECTS

HTML | CSS | JAVASCRIPT | REACT.JS | NODE.JS | MONGO DB | SDLC | ADOBE XD

- Developed an E-commerce website using MERN stack that enabled users to securely buy and sell products online.
- Designed and developed several portfolio websites for clients, showcasing their skills and project works in an aesthetically pleasing & user-friendly way. Utilised cognitive load to create visually compelling websites that effectively showcased client
- Built website clones of popular platforms such as Netflix, Spotify, and Myntra to understand their user interfaces in-depth. Analyzed the design and functionality of these websites to gain insights into effective UI design principles and apply them to future projects.
