Objective

Looking for a Challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

Experience

- **LTIMindtree** 30/04/2021 - Present
Software Engineer
- **Newgen Software Technologies Limited** 1/09/2020 - 30/04/2021
Software Engineer
- **Newgen Software Technologies Limited** 12/02/2020 - 1/09/2020
Software Engineer Trainee

Education

- **Amity University, Lucknow Campus** 2020
B. Tech(CSE)
8.94 CGPA
- **SKD ACADEMY** 2016
INTERMEDIATE
86.4%
- **SKD ACADEMY** 2014
HIGH SCHOOL
85.3%

Skills

- Core Java, JavaScript, HTML, CSS, JQuery, Spring MVC, SpringBoot, Microservices, Bootstrap, MySQL, Junit, GIT, SonarQube, SOAP REST based API development, Ajax, REST Integration, Spring Security, OAuth, SAP commerce cloud, Azure, Hibernate, Docker

Projects

- **PromoPricing Promotion Module**
Responsibility & Main Activities-
Developed Micro-Service springBoot based web application for managing promotions and vouchers for a ecommerce website.
Worked with HTML, CSS for frontend and JavaScript and JQuery for the validation.
Used REST for integration with SAP team(Third party) for data exchange.
Worked with many Ajax calls for frontend and backend integration.
Implemented OAuth for Authentication.
Participated in technical calls with different stakeholders to decide the best approach to implement requirements.
- **Hybris B2B Order portal Rollout for Multiple Countries**
Responsibility & Main Activities-
Requirement analysis, design, and development of new implementation
Worked on modification of existing web services(conversion from SOAP to REST)
Worked on several custom cronjobs for different client specific requirements
Prepared and executed groovy scripts for migration of data in the production environment
Improved the quality of code using sonarQube
Refiltered the database calls resulting in a 40% improvement in system performance.

Achieved a 95% client Satisfaction rate by ensuring all project deliverables met or exceeded client expectations.

Ensured minimal escalation while working on FSDs by developing debugging skills

Implemented new Functionalities using springBoot and Micro-Service Architecture.

Experience In Data modeling.

Working experience with performance monitoring tools like Kibana and App dynamics.

Involved in Backoffice Customization.

- **Hybris Order portal Version Upgrade**

- **Responsibility & Main Activities-**

- Involved in implementations of Business/ Customer Requirements for Application development.

- Migration of code from old suit to new suit.

- Worked on order place flow.

- Created and executed impex for removing data from existing tables.

- Rewrote the code using java 8 features to improve the performance and Readability of the code.

- Prepared production checklist for successful go live of the project.

- Worked on excel upload and download flow.

- **Creating A REST API using Spring Boot**

- **Responsibility & Main Activities-**

- Created the Restful API performing the CRUD operation.

- Implemented custom Exception Handling

- Implemented versioning REST API

- Customized Rest API Response-Filtering.

- **Customer Debit Card Management System using Spring MVC**

- **Responsibility & Main Activities-**

- A Spring MVC based web Application for Managing the debit card for the customer.

- performing the CRUD operation.

- Using JavaScript for validation

- Using Spring Data JPA and hibernate for data persistence.

- Used oauth 2.0 for authentication

- Connected MySql database for my application for storing the data.

- **Currency Conversion and Exchange using microservices with spring cloud**

- **Responsibility and Main Activities-**

- Created multiple restful microservices.

- Managed all the instances of microservices with eureka naming server.

- Used Feign for easy interaction between the microservices and load balancing.

- Configured profiles for the Micro-Service.

- Connected spring cloud config server with my git repository.

Achievements & Awards

- Spot-on Award Received peer awards from Team members and technical leads for working in project seamlessly, displaying exemplary teamwork and for offering helping hand to colleagues towards the problem solving

Languages

- Proficient in English and Hindi
- Working knowledge of German

PERSONAL ATTRIBUTES

- - Determined to complete given task on time
 - Quick Learner
 - Proactive Attitude

CERTIFICATION

- Microsoft Certified: Azure Fundamentals
