2008 - 2009

Secondary School Of Certificate (93.0%)

## Project

### Food Munch

[project1\\_link](#)

**Technologies used :** HTML, CSS, Bootstrap

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components.

### Todos Application

[project2\\_link](#)

**Technologies used :** HTML, CSS, JS, Bootstrap

Developed persistent todo application with CRUD operations to track list of tasks

- Displayed list of todos with HTML list elements, styled todo list using CSS, Bootstrap

- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.

## Typing Speed Test

[project3\\_link](#)

**Technologies used :** HTML, CSS, JS, REST API Calls, Bootstrap

Developed an application which measuring time he took to complete given paragraph

- Maintained timer by using APIs setInterval, clearInterval and Updated timer in the UI dynamically using JavaScript DOM operations for every 1 second.
- Fetched the paragraph from server asynchronously using fetch GET HTTP API call and displayed it on UI by using JavaScript DOM Operations.
- Displayed time that user took in the UI using JavaScript event listeners once user clicked on submit button, Did form validations for incomplete paragraph.

## Experience

### First Bench (IT Helpdesk Support)

Mar 2017 - Aug 2018

Chennai , Tamil Nadu

Inserting customer and account data by inputting text based and numerical information from source documents within time limits.

Compile, verify accuracy and sort information according to priorities to prepare source data for computer entry. Reviewing data for deficiencies or errors, correct any incompatibilities if possible and check output. Research and obtain further information for incomplete documents. Scanning documents and print files, when needed

## Certificates

### IBM Data Science 101 Certification

I got IBM data science 101 certification from IBM SkillsBuild. It made me familiar th what is data science and its importance and its applications.
