Address: Panipat, Haryana(132001), India

BACKGROUND:

Results-oriented Application Developer with more than 2 years of experience in Application Development. I am dedicated and highly motivated individual with strong investing, problem solving and decision- making skills. Hands-on experience in software architecture, design, development building scalable, high-performance systems. I have experience of creating highly readable and easily maintainable code for features and applications with a useable and intuitive user interface experience. I likes to keep things simple, stay agile and responsive, in order to meet requirements quickly. Team player with effective interpersonal skills, excellent presentation and communication abilities at all levels (both internally and client-facing).
