Internship Experience

Full Stack Java Developer
Java By Kiran • Pune, Maharashtra

01/2023 - 05/2023

Month 1:

- ♦ Learned Java fundamentals and set up the development environment.
- ♦ Gained proficiency in HTML, CSS, and JavaScript for front-end development.
- ♦ Collaborated with the design team to implement UI/UX principles.

Month 2:

- ♦ Explored back-end development using Java, understanding server-side programming.
- ♦ Acquired database management skills, working with SQL for data storage.
- ♦ Built RESTful APIs for seamless communication between front-end and back-end.

Month 3:

- ♦ Integrated front-end and back-end components to create functional web applications.
- ♦ Implemented features involving real-time updates and user interactions.
- ♦ Collaborated with team members using Git, participating in code reviews.

Month 4:

- ♦ Focused on debugging techniques to identify and resolve issues efficiently.
- ♦ Contributed to solving coding challenges, enhancing problem-solving skills.
- ♦ Presented my work and accomplishments in a final presentation.

Overall, I gained practical experience in full-stack Java development, honing my skills in both front-end and back-end technologies. I learned to work collaboratively, communicate effectively, and adapt to an agile development environment.
