

Pooja Birari

Software Engineer

Provab Technosoft, Bangalore

Mob: +91-88888293256/8208261683

Email: puja.bhamare19@gmail.com

Career Objective

5 years of experience as PHP Developer in analysis, design, development, and management of web on windows based software applications to manage, test and develop distributed client/server, Internet and Intranet applications on heterogeneous environments. And 4 months of experience as salesforce developer.

Work Experience

- Worked as **Software Engineer** with **Born Group, Bangalore**
- Worked as **Software Engineer** with **Provab Technosoft Pvt.Ltd, Bangalore**
- Worked as **Php Developer** with **Chhand Innovations Pvt ltd, Pune**
- Experience in **MVC Framework Codeigniter , Yii Framework**
- Overall 4 years of experience in **Php Development**.

Professional Experience

- Involved in developing interactive web applications using a dynamic scripting language like php developed/design the application using wamp architecture.
- Design authentication form to check whether the user is an authorized person to use the system.
- Interact with client to gather requirement. Analyze requirement and develop functionality accordingly.
- Experience in developing ui applications using html, html5, jquery, and ajax and javascript.
- Involved in implementing the complete application in the in-build mvc architecture with ajax.

- Implemented php session variables and cookies and used zend-debugger for the error resolutions.
- Created the help desk for users queries to meet the bulk queries submitted by the users.
- Implemented bootstrap in developing ui and created drupal modules for activity log and service reporting.
- Implemented seo based drupal modules optimizing the search function all over the site.
- Built custom ui widgets and application logic using ui and mvc architecture.
- Defined and developed the applications presentation layer using html5/xhtml, css3, javascript, jquery and used bootstrap for designing web pages to get responsive designs. Tracked and fixed bugs that were found during various phases of developments.
- Used css and bootstrap to develop rich ui components such as accordions and modal windows using pure html 5 and css3. Modified the source code according to the requirement.
- Good in defect finding, logging and tracking and validating customer reported issues.
