Banaswadi, Bangalore – 560043

Senior Data Management Analyst with 5.5+ years of expertise in SAP (ERP, PLM), Master Data Management, and Supply Chain Management. Specialized in optimizing Supply Chain systems at PVH Corp, utilizing SAP ECC 6.0, SAP PLM, Oracle Agile 9.3.6, SAP S/4HANA, SAP BW, Power BI, and SQL. Proficient in managing Bills of Materials, Change Orders, Data mapping, and Master Data with a focus on Product Lifecycle Management (PLM). Experienced in SAP ERP and Agile methodologies. Skilled in creating reporting and analytics solutions for Material and clinical data, ensuring timely and quality delivery. Technical resource for data visualization and reporting tools, with clinical data management background and regulatory awareness.

EXPERIENCE

JAN 2022 - PRESENT

Senior Data Management Analyst, PVH Corp, Bangalore

- Ensured meticulous compliance with industry regulations and best practices for Material/product and clinical data management during my tenure. This dedication contributed to the PVH reputation for maintaining data integrity and meeting regulatory requirements.
- Played a pivotal role in the efficient validation and reporting of Material/product/clinical data across multiple projects. Leveraged strong data management skills to meticulously validate and maintain the accuracy and completeness of Material/product/clinical trial data, enhancing the agency's capacity to deliver precise reports to clients and regulatory bodies.
- Orchestrated end-to-end PLM material and style data management, ensuring robust data governance and a 98% reduction in discrepancies.
- Proficient in Supply Chain data governance, MDM, data visualization, and analysis.
- Ensured data integrity with a 40% reduction in supply chain risks through advanced audit processes.
- Optimized PLM data administration, reducing process cycle time by 30%.
- Led cross-team collaboration for system updates, upgrades, and standardization, achieving a 15% increase in data accuracy.
- Demonstrated expertise in ERP solutions (SAP ECC 6.0, SAP PLM, Oracle Agile 9.3.6, SAP S/4HANA, SAP BW), and productivity tools (MS Office, Power BI).
- Strong analytical capabilities in BoM, P&ID, PFD, SLD, ILD, and Tag analysis, contributing to a 15% reduction in supply chain disruptions and data-related errors.

SEPT 2018 - JAN 2022

Senior Specialist Global Offer and Product Operation, Dell EMC, Bangalore

- Managed ECO/ECR Creation/Review in SAP ECC & Agile for Dell EMC Product Structures.
- Ensured accuracy of ECO/ECR information.
- Coordinated with Supply Chain Product Engineering for ECOs.
- Facilitated ECO/ECR approvals and presented issues in cross-functional teams.
- Created ECO/ECRs in SAP PLM and participated in Material Financial Attribute Governance Council.
- Produced status reports and collaborated with international teams.
- Managed product lifecycle status, ES/EM dates, and drove ECOs through Oracle AGILE PLM.

- Reviewed change orders, coordinated approvals, and processed engineering change orders.
- Managed financial attribution sheet and validated attributes.
- Delivered status reports for process improvement.
- Transitioned from SAP to Agile PLM for Material Management.
- Managed Part/BOM updates, tracked ECO approvals, and aligned BOMs based on PCMs.
