7. Info edge India Ltd. (Naukri.com) as Sr. Software Engineer (Sep 2007 To Dec 2011)

Qualification

B.Tech(C.S)	B.Tech(C.S) Ajay Kumar Garg(U.P.T.U)	2003-2007	70%
PGDM(Cloud Computing)	Great Lakes University, Chennai	Pursuing	

Projects & Work Profiles

Organization : Inventum Technologies Pvt. Ltd.

In this organization, I am leading the IT Team of the Digital Department for client Everise located in the U.S. This is a premium multilingual, omnichannel support solution that works across voice, email, chat, video, forums or social media. My team consists of developers, testers, business analysts, mobile app developers, designers etc.

My roles and responsibilities are below :

- Brainstorming the project and architecting the Solution for clients who are associated with the Everise.
- Communicating with all stakeholders across the organization.
- Handling clients and managing delivery of the projects.
- Collaborating with department heads to achieve a common goal.

Tech Stack and Role:

Technology	DOJO Chatbot, Microservices REST API, MariaDB, NodeJS, Python, ReactJS, Elastic Search, Redis, Jenkins, Git etc.
Platform	LAMP
Role	Designing, Monitoring Impact and Errors, Guiding Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Equentis Wealth Advisory Service Pvt. Ltd.

In this organization, I was leading an IT team of 20 members. Team consists of developers, testers, business analysts, mobile app developers, designers etc.

My roles and responsibilities :

- Development of the project and architecting the Solution.
- Execution of each phase of the project.
- Communicating with all stakeholders across and outside the organization.
- Collaborating with department heads to achieve a common goal.

Tech Stack and Role:

Technology	PHP(CodeIgnitor), Microservices REST API, MySql, NodeJS, Python, Javascript, JQuery, Rabbit MQ, Solr, Redis, Kafka, Jenkins, Git etc.
Platform	LAMP
Role	Designing, Monitoring Impact and Errors, Guiding Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Clues Network Pvt. Ltd.(Shopclues.com)

Tech Stack:

Technology	PHP(CodeIgnitor), Microservices REST API, MySql, NodeJS, Python, Javascript, JQuery, Rabbit MQ, Solr, Redis, Kafka, Jenkins, Git etc.
Platform	LAMP
Role	Designing, Monitoring Impact and Errors, Guiding Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Accurex Marketing Pvt. Limited.(Policybazaar.com)

Work Profile and Tech Stack:

Technology	NodeJS(Express), AngularJS, MongoDB, PHP(CakePHP), REST services, SQL, JQuery, Redis, SVN
Platform	Linux
Role	Designing, Development and handling Errors, Mentoring Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Times Internet Ltd. (Gaana.com)

Work Profile and Tech Stack:

Technology	LAMP, JQuery, PHP, MySql, Apache
Platform	LAMP
Role	Designing, Development, Monitoring Impact and Errors, Guiding Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Jade eServices Pvt. Ltd.(Jabong.com)

Work Profile and Tech Stack:

Technology	PHP(YII framework, Zend Framework),MySql, Memcache, JQuery, Nginx, SVN
Platform	LAMP
Role	Designing, Development, Monitoring Impact and Errors, Guiding Team members, Coordination with QC Team and Deployment on Production Servers.

Organization : Info edge India Ltd. (Naukri.com)

Work Profile and Tech Stack :

Technology	PHP(Symfony Framework),MySql, Facebook API, JQuery
Platform	LAMP
Role	Development and Coordination with QC Team.
