NIRANJANAA UDAYAKUMAR

UX UI DESIGNER

My point of view, few thoughts on UX design:

I love learning how people think and behave, I leverage research to design user-centered products and experiences in solving user and business problems. My process is hands-on, collaborative, and iterative. Honing 7 years of design experience I'm especially interested on research, usability, prototyping and interactive design, helps me to think new possibilities in utilizing new technologies to improve people's lives in innovative ways.

WORK EXPERIENCE

May 2022 | **L&T Technology Services**
April 2023 | **Tech Lead**

- Over the tenure, I helped on 4 projects, Worked for **Eaton, USA** Seed UI app for Cloud *Mobile and Web* Applications. Collaborated with Brightlayer UI Design Team, Dev team using Material UI through research studies to create user flows with optimized features and reusable components.
- As a team worked on Sprint Activity through Jira Board in agile methodology following the task creation, conceptualization, deliverables uploading in confluence by establishing UX goals and priorities.
- Revamped and Redesigned the entire UX UI design for HMI app to better adapt Android device Lilliput tablet which improved conversion rate by 100 %
- I worked on expanding the future vision projects and worked to determine the features, user flows has been developed and deployed. I worked with external design team and handled solo projects with engaging user experiences, interaction flows for variety of screen sizes, tablets and mobile apps.

Sep 2020 | **Freelancing Works**
Aug 2022 | **Lead Designer**

- Conceptualised, Analysed, and designed wireframes for a Healthcare POC project prototyped the screens with interactive design.
- Planned, designed the Scuba dive project for Smart watch, the primary realms of work is responsive, features and functionalities. Worked in multiple projects.

Sep 2019 | **Event Junction**
Aug 2020 | **Lead Designer**

Planned and Implemented aesthetic visual designs. Handful of experience and coordinated in coordinating the team by collecting requirements from clients converting into designs.

Aug 2014 | **Amazon**
Jne 2019 | **Visual Designer**

Contributed and responsible for designing infographics for Digital Amazon Web services. I have extended my skills in e-learning projects by creating templates, storyboards according to SOP by adhering the SLA's.
