CURRICULAR ACTIVITY

Project:

i) AUTOMATIC TRAFFIC CONTROL SYSTEM FOR EMERGENCY VEHICLES :

This system provides clear way to the emergency vehicles like ambulance, fire brigade, police van. Whenever these vehicles enters into the range of sensor this system controls the signals by measuring the density of traffic. Hence Ambulance can reach hospital without wasting time for the clearance of traffic load. This system is also useful in traffic congestion as it reduces traffic and the workload of traffic policeman.

Projects (During Certification):
