

NAVYASHREE M

Java Developer

navyaashree1998@gmail.com | 09538315045 | Bangalore

EDUCATION

AMC Engineering College

Information science and engineering Bachelor's

CGPA: 6.55

Bengaluru

August 2017 - August 2022

EXPERIENCE

Devtown | Backend operations

Bengaluru, India | September 2022 - April 2023

Managing and storing backend data in Excel and E-mail coordination.

SKILLS

Programming Languages: Python, Java
Libraries/Frameworks: Hibernate, Spring MVC
Tools / Platforms: Java SE, Eclipse, IntelliJ IDEA
Databases: SQL

PROJECTS / OPEN-SOURCE

Online shopping portal

C#, SQL server, ASP.NET 2.0, Xampp

It's a clone of Applications like Amazon, Flipkart, Myntra etc..

the Operating system is windows XP, Linux.

It's developed using C#, Front end technology is Microsoft .NET Framework, HTML and Back-end is SQL server 2000.

Middleware Technology is ADO.NET, Client side Script is Javascript, web server is Xampp

Student result management

Java, JSP, Servlets, MySQL

The main objective of the project is to provide the examination result to the student in a simple way.

This project is useful for students and institutions for getting the results in simple manner And admin gives the privileges to the Teacher and student and the guest user to access the result.

Green coffee beans defect detection using CNN

CNN, AlexNet, VGG19

With this project we found that AlexNet is better than VGG19 for the some cases of coffee beans quality testing. So, AlexNet was chosen as the primary classification model in the backend.

Furthermore, the VGG19 model was run simultaneously for better results deployed, hence the functionality worked as expected.

CERTIFICATIONS

- Python Programming - AMC Engineering College, Bangalore.
- Machine Learning with Python - Verzeo Edu-tech.
- Full stack web development - PSA, Bangalore.
