## CAREER OBJECTIVE

---

To keep up with the learning curve and persistently work on myriad technologies contributing to the development and enhancement of projects as well as the respective roles in my career.

## TECHNICAL - SKILLS

---

- ReactJs, Redux
- Java Script, jQuery, HTML, CSS & Bootstrap
- Angular
- AJAX, Json, REST API & Web Services
- AWS
- Databases: MySQL

## WORK EXPERIENCE

---

### **J.P. Morgan, Mumbai (Software Engineer): -**

*Sep.2021-Present*

- Working as a "Frontend Developer" for DLC (Document Life Cycle) Application, responsible for development of web as well as microservices.
- Developing several web components for CEDIS project like Parties and Signers and Covenants & clauses etc.
- Participating in all agile ceremonies to understand the business requirements and other needs.
- Maintaining the Project tracker of requirement list, based on which the development takes place.
- Working experience in UI with ReactJs, JavaScript, HTML, CSS.

### **Tata Consultancy Services (TCS), Mumbai (System Engineer): -**

*Jan. 2017 –Sep.2021*

- Worked as a "Developer" and experience in skilled Programming and Development. Working experience in UI with Reactjs, JavaScript, jQuery, HTML, CSS.
- Strong debugging and problem-solving skills with an excellent understanding of the system development methodologies, techniques and tools.
- Designed interactive UI in order to abstract the low-level logic from the team that can simply execute the jobs.
- Collected requirements and writing web services to return JSON data. Worked on making API requests to services from front-end and parsing the response in JSON format accordingly.
- Worked on debugging network-based applications with necessary break points for testing.
- Developed and integrated web-services with PHP.
- Worked as a web-app developer on the development, integration and testing of two Tizen-based OTT web-apps on the Samsung Smart TV platform.
- Participated in all aspects of a project, from design and development to testing.
- Maintained the Project tracker of requirement list, based on which the development takes place.
- Worked as UI Developer for the TRIVUS OTT Platform looking into all aspects of Responsive Web site development across various Screens and devices.

## PROJECTS

---

### **CEDIS and DLC (Current project): -**

- This is investment banking application; in this application we provide microservices to the other consumers (other applications). Working as frontend developer.
- Tools: VS Code, Git/bitbucket, IntelliJ, Jira
- Technologies: Reactjs, JavaScript, HTML, CSS, Spring Boot, Java, MySQL
- Role: Frontend Developer

### **Trivus- TCS video Channel: -**

- In this, we have provision to add multiple type of content videos. We have categories of videos, tag cloud, all the functionalities of video channel. All the contents and components we display on our client website is created here. These components are accessed in client Application using rest calls.
- ReactJs Application
- Migrating with ReactJs
- Client: TCS Internal
- Role: Front End Developer
- Tools: VS Code, Git, Notepad++
- Technologies: ReactJs, Redux, Java Script, jQuery, HTML, Bootstrap & CSS

### **Trivus-UX (OTT Application): -**

- This is an OTT application where an end user can watch all shows/series/movies based on their choice and live shows and other videos.
- ReactJs Application
- Migrating with ReactJs
- Client: TCS Internal
- Role: Front End Developer
- Tools: VS Code, Git, Notepad++
- Technologies: Reactjs, Redux, Java Script, HTML, React-Bootstrap & CSS

### **OTT (Over the Top Technology) Middle-Ware Admin Portal: -**

- In this, we have provision to add multiple type of content based on multiple geographies and platforms. All the contents and components we display on our client website is created here. These components are accessed in client application using rest calls.
- Js Application
- Client: TCS Internal
- Role: Front End Developer
- Tools: Eclipse, SVN, Notepad++
- Technologies: Java Script, jQuery, PHP, MySQL, HTML, Bootstrap & CSS

### **Smart TV Developer: -**

- Developed web application and integrated it with Samsung Smart TVs Tizen platform. Developed the required OTT functionalities in JavaScript, integrated it with the Caph (native Samsung) framework. Co-ordinated with team members to enhance the existing code-base with feature additions. Prepared API parsers that interface with web services.
- Role: Webapp Developer for Samsung Smart TV
- Tools: Eclipse, Visual Studio Code, GIT, Notepad++
- Technologies: Java Script, jQuery, json, HTML, CSS

## **Fight Sports Web Development: -**

- Fight Sports is an application based on OTT (Over the Top Technology). It allows a consumer to stream audio and video media over the internet. This web application streams media in multiple geographies. In this application we have implemented live streaming video on demand, live events, Program guide and many more features for a registered user of that geography.
- Integrated with Angular 7
- Role: Front-End Developer
- Tools: Eclipse & Notepad++
- Technologies: Angular, Java Script, jQuery, HTML, & CSS

## **EDUCATION**

---

**Gyan Ganga College of Technology, Jabalpur, M. P.**

Bachelor of Engineering in Computer Science

**July 2012 - May 2016**

CGPA: 7.75

## **AWARDS AND ACHIEVEMENTS**

---

- Service & Commitment Award.
- Fresco Play Miles Award.
- MFDM AI Award

## **KEY COMPETENCIES**

---

- Software Development and Architecture
- Performance Optimization
- Cohesive team worker, having strong analytical, Problem solving and interpersonal skills
- Capability to adapt and learn new environments and tools
- Agile Processes
- Front End and Back End Development

## **Strengths:**

- Learn Technology quickly based on Project Requirement.
- Project Management, Team Building & Good Leadership.
- Hard Working, Quick Learner, Positive Attitude.

## **EXTRA - CURRICULAR / CERTIFICATION**

---

- AWS certified Cloud Practitioner
- Python Udemy certified
- ReactJs: Front-end Development, Native Advance Udemy certified
- Foundation: C++ Concepts, Java Script Intermediate, PHP, Core Java Concepts, jQuery, Java EE
- Digital: Cloud Computing, Angular 2 Advanced, HTML 5-CSS3
- Process: Agile Way of Working Foundation, ITIL

## **PERSONAL TRAITS**

---

- Highly motivated and eager to learn new things.
- Strong motivational and leadership skills.
- Ability to work as an individual as well as in group (team).
- Listening Music

- Language: English & Hindi
