Objective

I am eager to join your organization, leveraging my acquired knowledge and skills to contribute effectively to projects and advance my professional journey.

In my **one-year IT experience**, I've honed my skills in Oracle BRM billing. I hold extensive expertise spanning requirement analysis, development, and unit testing in Oracle BRM, and I excel in customizing opcodes for invoicing. Proficient in iScripts, iRules, mapping, and grammar file customizations, I have hands-on experience configuring pricing structures. I'm familiar with Perl scripting and have conducted workshops and training on BRM. I possess strong analytical and critical-thinking abilities, coupled with excellent communication skills. I collaborate effectively within teams and work autonomously, swiftly adopting new technologies for live projects.

Professional Experience

Project   : **NY Thai Billing Transformation**
Client   : **YIP**
Environment   : Oracle BRM 12
Project Timeline: Feb 2023 - Present

I've taken on the responsibility of implementing new enhancements and executing them effectively. Addressing invoicing issues, I ensure accurate and timely invoice delivery by meticulously following established procedures. I modified the invoicing policy opcode to address data fix root causes and achieve thorough resolution. My tasks encompass trial billing, invoicing, and corrective actions. I identify issues, implement solutions, and reprocess invoices while maintaining robust error handling. I've created comprehensive unit test cases aligned with business needs and documented them. Offering UAT support, I efficiently resolve customer queries during testing and developed a custom Perl script for invoice XML manipulation.
