Work Experience

2021 - Present
Senior Quality Engineer
LTIMindtree

Project: Avvo.com
Project Summary:
Avvo.com website is used in the US. Avvo is an online marketplace for legal services, that provides lawyer referrals and access to a database of legal information consisting primarily of previously answered questions. Lawyer profiles may include client reviews, disciplinary actions, peer endorsements, and lawyer-submitted legal guides. Avvo lawyer profiles are aggregated from public records provided by state bars and additional attorney licensing entities.
Roles and Responsibilities:
Assigning tasks to team and keeping track of testing activities.
Writing and executing test cases using manual and automation processes.
Tracking the environment up/down time.
Developed and implemented REST API automation using Junit, Cucumber BDD Framework in Java.
Utilized Junit, TestNG, Selenium Cucumber BDD Framework in Java for UI automation.
Proficient in manual testing including test case preparation, Postman, JIRA, requirement analysis, and Agile framework.
Writing SQL Query to extract data from various database tables for testing purpose.
Skilled in maintaining accurate documentation and bug detection during code auditing.

2018 - 2021
Senior Process Associate
Tata Communications Limited

Project: Vodafone (UK)- Networking web based
Project Summary:
Openreach Limited (Vodafone) runs the UK's digital network. It connects homes, schools, hospitals, libraries, businesses- large & small, broadcasters and government to the world. Their mission is to build the best possible network with the highest quality of service and make sure that everyone in the UK can be connected.
Roles & Responsibilities:
As a Test Engineer, I was responsible for Sheet Based Functional Testing, Localization Testing, Load Testing, Regression Testing, Requirement Based Testing, Long Run Testing, and Exploratory Testing. Worked on Black box Testing.
Understood the steps and hardware requirements first and shared it with lead/RM for unavailability of hardware and completed the load testing as soon as possible.
Analyzed sheets for their correctness, understood the nature of the screen to be captured in advance and shared any discrepancies with the manager/lead. Completed the assigned task before the given timeline.
Successfully executed assigned test cases efficiently and fulfilled the daily targets for test case execution.
Fulfilled both quality and quantity aspects of test case execution.
