PROFILE

I am a highly skilled Frontend Developer with 2+ years of experience in freelance in creating captivating and user-centric web applications. My passion lies in transforming design concepts into seamless and visually appealing websites. Proficient in modern frontend technologies such as HTML5, CSS3, JavaScript, React.

EXPERIENCE

https://soulfulretreatdrshimali.com/

Dr Shimali Sinha | may 2023 - Present

- I successfully implemented a dynamic **PHP**-based website with a **MySQL**-powered review uploading system, resulting in a remarkable **70%** increase in website traffic. This achievement demonstrates my proficiency in web development and my ability to drive user engagement through effective database integration and user-generated content management.

Projects

- **Ola Service** - Developed Ola clone using **React** and **API** allowed user to find vehicle availability.
- **Grossery ecommerce** - Developed a **React**-based ecommerce application with complete **authentication** along with a landing page containing different items and orders page.
- **React Weather Application** - Build a weather application that fetches weather data from a public **API** and displays it to users. Include features like location detection, temperature conversion, and weather forecasts to showcase your **API** integration and data visualization skills.
- **Blog Platform** - Create a blog platform where users can write and publish articles. Implement user registration, authentication, and a rich text editor for creating and editing articles. Showcase my skills in building a full-fledged **CRUD** (Create, Read, Update, Delete) application.
- **Online Library** - Design and Developed best Responsive Frontend for online library using **React** and **API** that makes it easy to find book.
