INTERNSHIPS

Dell technologies
Aug. 28, 2020 - Nov. 26, 2021

Key Skills: AIML   Python

This internship was really helpful for me while doing it i got idea about ai/ml domain. How a data scientist work in this field. There were several modules taught by the dell technologies. I learnt 30 chapters altogether in ai/ml starting from the basic to the advanced levels.

java technocrat
March 12, 2018 - April 15, 2018

Key Skills: java   HTML   css

I made a project on library management system using eclipse software.java ,html and css was used for making this project.

PROJECTS

Land use & land cover using remote sensing and classification models
Nov. 1, 2021 - Dec. 31, 2021

Key Skills: AI/ML   Python

Lulc project was my minor project during 7th semester .It helped me to know more things about ai/ml domain. I did the project in qgis software and by importing satellite images in it. I considered an area of puri to start my research and what changes have been occurred from 2019 to 2020.And I collected the data from usgs site. The land was classified into various colors such as red ,blue, green and so on resulting in urbanization, forestry, water body .The training data and classification method was the further process ,and the resulting output was accuracy with 100%.

ACHIEVEMENTS

- Got 1st prize in bootcamp of entreuprenership

PERSONAL INTERESTS/HOBBIES

- Writing, singing, playing badminton.

EXPERIENCE

- Working as a Associate Software Engineer in MPHASIS from 14th Dec 2021 to 28th Feb. 2023.
- My training project was HOTEL ROOM BOOKING: I learned Several technologies like HTML, CSS ASP.NET, ANGULAR, JAVASCRIPT, SQL SERVER. The Frontend part was handled by me. I made homepage and login page applying certain HTML, bootstrap, CSS in my project.
- After completion of training I was assigned to client project i.e. SCHWAB ADVISORY CENTERE. My Client was CHARLES SCHWAB.
- I attended Scrum calls and interacted with team lead and members in my project to know about the upcoming task .
- I attended client calls to interact with Scrum Master and Client team members to further work on my sprint task.
- After finding Bug in Sonar I resolved the issues by applying certain HTML and CSS.
- Further I worked on Master account Selector and analyzed the code.
