## Professional Synopsis

- Over 9.7 years of work experience in Software Development.
- Working as Team Leader .Net Developer for Prolific Systems & Technologies Pvt. Ltd to implement various tool in TDPro, TTP etc product.
- Worked as .Net Developer for ThinkScripts Consulting to implement various tool in TeasurySolution product.
- Worked as .Net Developer for MAIA Intelligence Pvt Ltd to implement various tool in 1KEY Agile product (BI Suit) as well as in 1KEY HPC product for 6.9yrs.
- Exposure to develop various modules which fit into BI concern and handling client issues and technical difficulties.
- Have been working on VB.net, C#.net, .NET Framework 2.0/3.0/4.0/4.5.2, SQL Server 2005/2008/2014.
- Worked across multiple domains like, Reporting, Banking, Security, IT software development.

## Work Experience

# Prolific Systems & Technologies Pvt. Ltd.

### Team Leader DEC '17 – Till date

**Responsibilities:**

- Developing current product to stand in global market and before modifying think twice on Impact analysis.
- Resolve the technical issues for Client. Coordinating with the clients through telephone, Any Desk, TeamViewer.
- Working as a team member in information gathering and planning to best fit.
- Handling Prolific BUG. Assigning respective Issues to the developers.
- Maintaining File Version of the entire project File Version of all Developers.
- Assisted testing and support team.

### Key Projects

| Project : Transformer Design Pro (TDPro) | |
|---|---|
| **Domain:** Electrical | **Duration:** OCT 2018- Till date |
| **Technology**      :      VB.Net, C#.NET, SQL Server 2014 & SSRS Reports | |
| **Project Description:** Development, Documentation, Designing. | |
| **Responsibilities:**<br>• Used Validation Controls in VB.Net for validating Front-end form<br>• Extensively used Grid Views with sorting and paging<br>• Involved in the all Phases of Software Development Life Cycle like Requirements Gathering, Analysis, Design, Implementation and Testing.<br>• Interfaced AutoCAD Inventor with TDPro software for auto generation of 3D drawings.<br>• Developed 2D drawings in VB.Net using graphics coding.<br>• Assisted testing as well as support team.<br>• Handling Development Team. | |

| Project : Database Update Utility | |
|---|---|
| **Domain:** Database | **Duration:** Dec 2017- Till date |
| **Technology**:    VB.Net, C#.NET, SQL Server 2014 | |
| **Project Description:** Development, Documentation, Designing. | |

**Responsibilities:**
- Used to Compare Customers Old Database with Latest Database.
- Upgrade Customer Database.
- Compares Tables, Stored Procedure, Trigger, Views and Function.
- Add New :
  - Tables
  - Function
  - Stored procedure
  - Views
  - Triggers
- Alter :
  - Table by adding Columns.
  - Function
  - Stored Procedure
  - Triggers
  - Views

| Project : Transformer Test Pro (TTP) | |
|---|---|
| **Domain:** Security | **Duration:** DEC 2017 - DEC 2018 |
| **Technology**:    VB.Net, C#.NET, SQL Server 2014 & SSRS Reports | |
| **Project Description:** This software is used for performing various test on different types of Transformer. It acquires the data from testing instruments automatically and the reports are generated in standard format with company's header and footer. | |

**Responsibilities:**
- Guiding Engineer onsite for installation and resolve the bugs generated during onsite testing if any.
- Extensively used ADO.NET objects such as Data Adapter, Data Reader, and Dataset for Reading/Inserting/updating/Deletion of records in the database.
- Involved in the all Phases of Software Development Life Cycle like Requirements Gathering, Analysis, Design, Implementation and Testing.
- Assisted testing as well as support team.
- Handling Development Team.

| Project : Motor Test Pro | |
|---|---|
| **Domain:** Security | **Duration:** Jan 2018 - April 2018 |
| **Technology**:    VB.Net, C#.NET, SQL Server 2014 & SSRS Reports | |
| **Project Description:** This software is used for performing various test on different types of motors. It acquires the data from testing instruments automatically and the reports are generated in standard format with company's header and footer. | |

**Responsibilities:**
- Guiding Engineer onsite for installation and resolve the bugs generated during onsite testing if any.
- Extensively used ADO.NET objects such as Data Adapter, Data Reader, and Dataset for Reading/Inserting/updating/Deletion of records in the database.
- Involved in the all Phases of Software Development Life Cycle like Requirements Gathering, Analysis, Design, Implementation and Testing

## ThinkScripts Consulting .
### Senior Software Developer Jan'17 – Till date

**Responsibilities:**

- Assisted testing team.
- Document requirement. Information Gathering.
- Handling Development Team. Getting Discussed with Team.
- Help File Created for TreasurySolution.

**Key Projects**

| Project : Treasury solution | |
|---|---|
| **Domain:** Banking | **Duration:** Jan 2017- Till date |
| **Technology**:   C# , ASP.net, Bootstrap, JQuery, Ajax, SQL 2014 | |
| **Project Description:** Development, Documentation, Designing. | |
| **Responsibilities:** <ul><li>Treasury solutionis related to LC BC Banking Domain related Project. Helpful for all the company which are related to Import Export and dealing with LC BC.</li><li>Dashboards, Report, Masters, Transaction and Charges.</li><li>Reports Like PO, Invoice, CHA, Transaction Details, Charges Details and FD Transaction Details.</li><li>Graphical Reports like Bar Chart, Sunburst Chart, StackBar Chart, Radar Chart, Pie Chart , TimeSeriesChartand DonutChart.</li><li>Assisted testing team.</li><li>Handling Development Team.</li></ul> | |

| Project : TSC ReportingServices | |
|---|---|
| **Domain:** Banking | **Duration:** Jan 2017- Till date |
| **Technology**:   C# , ASP.net, SQL 2014 | |
| **Project Description:TSC ReportingServices** is related to send Treasury Solution Report through Email. | |
| **Responsibilities:** <ul><li>Reports Email should be send on assigned time.</li><li>Failure Email should be received back.</li></ul> | |

| Project : TSC Subscription | |
|---|---|
| **Domain:** Security | **Duration:** Jan 2017- Till date |
| **Technology**:   C# , ASP.net, SQL 2014 | |
| **Project Description: TSC Subscription**is related maintaining Licensing Subscription for Treasury Solution at Clients Places.Helps for Renewal of Subscription of Project easily and effectively in few minutes. | |

---

**MAIA Intelligence Pvt Ltd.**

**Senior Software DeveloperOct'07 – July 2014**

**Responsibilities:**

- Developing current product to stand in global market and before modifying think twice on Impact analysis.
- Resolve the technical issues for Client. Coordinating with the clients through telephone or WebEx.
- Working as a team member in information gathering and planning to best fit for 1KEY.
- Handling JIRA BUG. Assigning respective Issues to the developers.
- Maintaining File Version of the entire project File Version of all Developers.
- Assisted testing team.

**Key Projects**

| **1KEY Scheduler** | |
| --- | --- |
| **Role:**Designing and Development. | **Domain:** Reporting |
| **Technology**:    VB.Net 2.0, SQL Server 2005. | |
| **Project Description: My Scheduler** is a service that provides a framework to design and define multiple tasks to generate and email reports at scheduled intervals. These reports can be fetched, emailed or saved to disk as per defined schedules. A 1KEY Agile Administrator or an authorized person can create new schedules for different reports. | |
| **Responsibilities:**<br><br>- Development and  Enhancement. | |

| **1KEY File Reader** | |
| --- | --- |
| **Role:**Designing and Development. | **Domain:** Reporting |
| **Technology**:    VB.Net 2.0, SQL Server 2005. | |
| **Project Description:**The **File Reader** group allows you to import Text and Excel files, convert them into 1KEY Agile readable format and display them in a View or Cube Report. | |
| **Responsibilities:**<br><br>- Development and  Enhancement. | |

| **1KEY MetaUpgrader** | |
| --- | --- |
| **Role:**Designing and Developmentand Support. | **Domain:** Reporting |
| **Technology**:    C#.Net 2.0, SQL Server 2005. | |
| **Project Description:** 1KEY_MetaUpgrader, this module is for updating/or executing script in the SQL database. In this module, user can upload the data via two means. After selecting a ways user has to execute the task for that user has to select the target database. And later select the particular script which he wants to execute and click on execute button. | |
| **Responsibilities:**<br><br>- Development and  Enhancement. | |

# Neha Prasad          **Senior Software Developer**

| **1KEY DBComparator.** | |
| --- | --- |
| **Role:**Designing and Development. | **Domain:** Reporting |
| **Technology**:    C#.Net 2.0, SQL Server 2005. | |
| **Project Description:** This utility can be used to for comparing database structure. 1KEY_DBComparator allows you to compare tables, views, functions and stored procedures between two databases. It display details difference between schemas such as missing or mismatching stored procedures, tables, triggers, columns, indexes and constraints. It also displays the details difference related to columns of a table such as data type, null ability and defaults. In scripting part, it displays the difference of a Table, Views, Users and Stored Procedure. | |
| **Responsibilities:** Development and Enhancement. | |

| **1KEY Advance Chart** | |
| --- | --- |
| **Role:**Designing and Development. | **Domain:** Reporting |
| **Technology**:    C#.Net 2.0, SQL Server 2005, Web Service. | |
| **Project Description:**1KEY_Advance Chart makes 2D and 3D charting easier than ever. It includes multiple palettes to automatically color your series, so that appearances are never a concern.  And there are so many additional automatic adjustments, that it takes little effort to create a smart, professional looking chart. | |
| **Responsibilities:** Development and Enhancement. | |

| **1KEY MAP** | |
| --- | --- |
| **Role:**Designing and Development. | **Domain:** Reporting |
| **Technology**:   C#.Net 2.0. | |
| **Project Description:**This utility is used read shape file and shows the map on the third party control. | |
| **Responsibilities:** Development and Enhancement. | |

| **1KEY HPC Chart** | |
| --- | --- |
| **Role:**Designing, Development and Support. | **Domain:** Reporting |
| **Technology**:   C#.Net 4.0, SQL Server 2008, Web Service. | |
| **Project Description: 1KEY HPC Chart** makes 2D and 3D charting easier than ever. It includes multiple palettes to automatically colour your series, so that appearances are never a concern. And there are so many additional automatic adjustments, that it takes little effort to create a smart, professional looking chart. | |
| **Responsibilities:**  Development and Enhancement. | |

| 1KEY Cube |
|---|

| **Role:** Future Enhancement and development. | **Domain:** Reporting |
|---|---|

**Technology**:  C#.Net 2.0.

**Project Description: 1**KEY Cube is a multi-dimensional report format. With its powerful data architecture, it is able to slice and dice information efficiently and create easy-to-use and flexible reports.

It delivers numerous layout customization options which give a great deal of control over the report layout and format.

**Responsibilities:**

- Development and  Enhancement.

| 1KEY Advance View |
|---|

| **Role:**Designing, Development and Support. | **Domain:** Reporting |
|---|---|

**Technology**:   C#.Net 4.0, SQL Server 2008, Web Service.

**Project Description:**The 1KEY Advanced View Report is an extension of the 1KEY View Report format.

The Advanced View format has been designed to help you take a more focused approach towards viewing multi-level reports. You can drill-down and drill-up to view the lower and higher levels respectively.

That is, it displays one level at a time and therefore does not load the report with excess data from other levels of the report, until they are required. This is done by executing the query for each report level, only when that level is accessed. This also results in faster response times while viewing various report levels.

**Responsibilities:**

- Development and  Enhancement.

| 1KEY OLAP Browser |
|---|

| **Role:**Designing, Development and Support. | **Domain:** Reporting |
|---|---|

**Technology**:   C#Net 2.0, SQL Analysis Service.

**Project Description:** A cube on an OLAP server (Microsoft SQL Server 2000 Analysis Services, Microsoft SQL Server 2005 Analysis Services or Microsoft SQL Server 2008 Analysis Services), you can view its data within the 1KEY_MS_OLAP_Browser. The only need is to specify the connection settings to the server, and create fields in the grid that represent specific measures and dimensions of the cube.

**Responsibilities:**

- Development, Designing and Support.

# Neha Prasad    **Senior Software Developer**

*Technical Skills:*

| | | |
|---|---|---|
| **Technology** | : | .NET (VB.net, C#.net), Bootstraps, JQuery, ASP.net 4.5.2 . |
| **Databases** | : | SQL Server 2005/2008/2014, SQL Express, Oracle 9i(introduction). |
| **Operating Systems** | : | Windows XP, Vista, Windows 10. |
| **Third Party Tools** | : | DevExpress, Infragistics |

*Professional Activities and Training:*

- SSIS, SSRS, SSDE training from Microsoft.

- Attend on WCF Technology training from Microsoft.

- Attended Notes/Domino Application Development - Xpages -Face to Face Technical Workshop at IBM

- Project work on **TEXTILE INDUSTRY** and secured IIIrd prize by **KELKAR EDUCATION TRUST**, **V.G.VAZE COLLEGE OF ARTS, SCIENCE & COMMERCE, MUMBAI**.

*Qualifications*

- B.E(Electronics)– Dr D.Y.Patil College Of Engineering and Technology (Kolhapur)

- HSC (Science)-B.E.S. Junior College Of Commerce & Science (Bhandup)

- SSC -St. Mary's English High School (Dombivali)

*Personal Details*
