PROFESSIONAL EXPERIENCE

MOMEAL(NGO)   **Banglore, Karnataka**
Freelancer Web Developer   **March 2023-Present**

- Build responsive Websites for customers using semantic, material UI, Html5, CSS, Javascript, React.js, and CSS compiled using Maven and Webpack build tools.
- Lead a client to revamp Momeals.in website using React.js. This includes refactoring the codebase, improving performance, and implementing new features to enhance the overall user experience.
- Developed code that deals with large data sets by rendering components on UI and optimizing calls to minimize HTTP requests.
- Ensured clean code maintenance through adherence to coding standards and effective utilization of Git best practices.

NEC SOFTWARE SOLUTION   **Mumbai, Maharashtra**
Associate Software developer   **April 2022-January 2023**

- Coordinated and maintained Taylor and Francis project as a junior developer.
- Addressed other senior developers to understand and perform assigned tickets on JIRA.
- Regularly engaging with clients to comprehend and document new requirements for effective project understanding.
- Became an integral member of a planning and discussion group for incorporating new feature additions into the current project, following a positive performance review and demonstrated eagerness to learn.

TECHSIERAA   **Navi Mumbai, Maharashtra**
Intern   **January 2022-March 2022**

- Led the UI development of an internal website for a TechSiarra client, delivering a seamless user experience and ensuring a visually appealing interface.
- Achieving a comprehensive comprehension and executing the features provided by the client in a seamless end-to-end manner.
- Deployed and delivered the entire project within a 1.5-month deadline, demonstrating exceptional project management and execution skills.
- Implemented UI enhancements and updates across 3 projects, ensuring a modern and user-friendly interface.

EDUCATION

BACHELORS OF DEGREE   **University of Mumbai**
Computer Science   **June 2014 -June 2017**
