**Company Name –** NKZ Technologies

**Designation :- Software test engineer**

**NKZ Technologies** is a software development company which build software's, Plugins, Extensions mostly for the Word Press websites. I used to handle testing for multiple projects Including Plugins, Software, and Extensions etc. I have worked on Multi-Vendor system, Inventory Management System, Event Management.

**Description of Projects:-**

● **Point of Sale (POS)**
Point of Sale System which provides store owners to have the functionality, where they can easily manage their online stores along with the physical outlets. The physical stores will have a POS front-end management system for which the admin can assign a store agent who can easily manage the sales and customers at that particular store. It lets retailers manage the products along with the inventory. POS holds all the tracks for customers and their respective orders.

● **Prescription**

Prescription helps customers to buy medicines from an online pharma shop by uploading a prescription for the medicines. File attachments are useful for uploading a doctor's prescription for buying medicines, vaccines, or other types of drug products online. The type of files supported for uploading a prescription/attachment are jpg, jpeg format.

● **WordPress WooCommerce Product RMA**

 Using this module, the customer can return the product have them refunded or replaced within the admin specified time limit.

**Education Qualification**:-
- B.tech (ECE) from Gandhi Engineering College , Bhubaneswar university of BPUT with 7.32 CGPA (2016)
- Intermediate(12th) in PCMIT stream from Shailabala women's college, with 58% (2012)
- Matriculation(10th) from S.C.B Medical Public School,(ICSE) with 72%(2010)
