Kalyani **Deshmukh**

Software developer

About me

I have had the privilege of gaining 2 years of experience as a Software Developer, during which I had the opportunity to work at Publicis Sapient and make significant contributions as a key member of the SCB X team. Throughout my career, I have developed a strong aptitude for problem-solving and have honed my skills in data structures and algorithms.

Driven by a genuine passion for delivering impactful solutions. I believe that my track record and dedication make me a strong candidate for the role, and I am excited about the prospect of joining your organization.
