PROFILE SUMMARY:

As a **Trainee Programmer**, I bring a strong passion for coding and a desire to learn and grow in the field. Proficient in programming languages like **C,C++ and Java**, I have experience in developing web applications and collaborating with teams. I am eager to expand my knowledge in areas like Dotnet Framework With excellent communication and problem-solving skills, I am ready to contribute to a dynamic software development team. Let's code together!"

WORK EXPERIENCE:

Trainee Programmer

Yash Technology Pvt. Ltd.   **July 18 ,2022 To Till Now**

PROJECT EXPERIENCE:

- **Polaris -**

POC Work in Polaris :- Web API with ADO.net ,Deploy the Web API to Azure App Service ,Azure App Service, Bus Service, Key Vault, Application Insight, Azure Storage, Azure Functions, Angular Project, JWT.

- **Travelocity -**

This project helps users in traveling to any new place. In this, the user has to select their travel plan, whether they want to go solo or in a group. They answer a set of questions, and then we generate a plan for them.

- **RenoHome-**

This project involves selling items needed for home renovation. Algolia search has been implemented to provide users with the best product results based on their queries, and I have worked on this aspect. I have also seen that products are being sold successfully. Additionally, APIs have been developed for this project.

- **Doctor Appoiment System -**

Doctor Appointment system can be used take appointment from doctor can generate bill for it and doctor can check appointment give prescription and can generate patient report also have the features to check past diseases of patient.
