PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER
FirstCry.com / Pune / June 2022 – February 2023

As a Software Engineer my main responsibility was to write code for all the functionalities of the static UI pages and making it dynamic with API requests and response which included coding, designing and modifying webpages by making API requests, processing the response and displaying the data on the webpages using ReactJS, HTML and CSS.
- Sending API requests to the server and processing the response.
- Created multiple new features for the website.
- Converted static pages to dynamic pages by displaying a dynamic pag catering to each user.
- Regularly collaborating with the Testing team to give the client a use friendly experience.

SOFTWARE ENGINEER
Tagrem corp. / Pune / June 2021 – December 2021

As a Software Engineer my main responsibilities included coding, design and modifying websites, from layout to function according to the client's specifications using ReactJS and SQL.
- Modifying the website considering user experience and function as we as making the necessary and requested changes as per the client demands.
- Creating patches for database migration.
- Making the required changes in the design of the website using CSS.
- Creating altering the database tables according to the requirements.
- Regularly collaborating with the Testing team to give the client a use friendly experience.

WEB DEVELOPER – INTERN
Ahuja Valecha & Associates LLP. / Pune / March 2021 – May 2021

My main responsibilities as an Intern Web Developer include –
- Creating sample UI components for the website in Adobe XD.
- Performing quality assurance check on the website which is being developed using Angular.
