Professional Summary

- 1.5 years of experience with front-end development having extensive knowledge of HTML, CSS, Javascript, React, and redux.
- Experience in working on applications in Employee Management software solutions.
- Passionate about user experience and design, and I am a quick learner with excellent communication who is eager to contribute to the success of a team.

Work Experience

Coding Faculty, **White Hat Junior (**December 2021 - December 2022)

- **Role**: Front-end Development Instructor.
- Guided students through the fundamentals of HTML, CSS, JavaScript, and Python.
- Lead students in developing practical projects, ranging from basic web pages and interactive web applications to small-scale Python programs.

Technology Associate, **Pearl Organisation (**October 2021 - November 2021)

- **Role**: Front-end Developer.
- Contributed to the development of an employee management system software by focusing on front-end design and implementation.
- **Tech stacks**: PHP, Laravel, HTML, and CSS.

Software Developer Intern, **CodeFire Technologies Pvt Ltd (**January 2021 - April 2021)

- **Role**: Front-end Developer.
- Responsible for UI design and API integration in an existing project.
- Developed a robust CRUD system, emphasizing API-driven architecture for efficient data management.
- Internship Projects
- **Tech Stacks**: HTML, CSS, Javascript, Jquery, AJAX, PHP, Laravel, Yii2, angular, and Vue.js.

Trainings & Certification

Coding Bootcamp, **Newton School (**July 2022 - July 2023)

- Full-stack Stack Web Development and problem-solving with Data Structures and Algorithms.
- Technical Stack learned: Java, HTML, CSS, Javascript, React and Redux.
- Participated in various coding competitions held by Newton School.
- Successfully completed various projects showcasing my technical abilities and creative problem-solving skills.

Projects

Amazon Clone, **Newton School** (hosted Link, GitHub) (July 2022 - July 2023)
Features:

- Developed a dynamic e-commerce platform featuring a user interface similar to Amazon's design.
- Implemented sign-in and sign-up functionalities for seamless user registration and authentication.
- Enabled users to search for products and browse through a product catalog.
- Integrated a robust cart system allowing users to add items, manage quantities, and view their selections.
- Employed responsive design principles to ensure optimal usability across various devices.

Tech Stacks: ReactJs, Redux, Tailwind, Firebase(Backend), Netlify and GitHub.

Technical Skills :

- React
- Redux
- Javascript
- HTML, CSS, Bootstrap, Material UI, Tailwind
- Core Java
- Soft Skills: Teamwork, Communication Skills, Public speaking, Leadership, Creativity, People skills

Education :

Degree	Institution/Board	Score
M.C.A(2017-20)	Uttarakhand Technical University, Dehradun, Uttarakhand	69.0%
