CAREER OBJECTIVE

Willing to work for an organization that provides a wide exposure and gives a learning environment to enhance my knowledge and skills and utilize the same to the fullest to contribute towards the growth of the organization alongside my growth.

ACADEMIC PROJECT

Title : Fake Reviews Detection

Description : The fake review detection is designed for filtering the fake reviews.
- We have implemented Fake review detection taken dataset by applying three feature extraction techniques namely Count Vectorizer, N gram model, Tf- idf Vectorizer.
- The extracted features are trained and predicted using four machine learning algorithms namely Naïve Bayes, Random Forest, Logistic Regression, SVM.

TRAINING

• *Software Development Course in J spiders, Rajajinagar, Bangalore*

Achievements

- 2015 ,Won throwball match at school level.
- 2017 ,Participated in inter-college dance competition
