EMPLOYMENT HISTORY

Wipro Technologies (April 2022 - Present)
Automation Test Engineer

Project 1: UAT testing on Top Gear Web-

Application

[Certification Link](#)

Project 2: Test Engineer Charles Schwab

- Understanding business requirements and translating them into UAT scenarios and test cases.
- Experience in planning and developing UAT strategies, including defining test scope, objectives, and test deliverables.
- Proficiency in creating detailed UAT test cases based on functional requirements and business use cases
- Demonstrated ability to execute UAT test cases, identify defects, and track them to closure.
- Conducting regression testing during UAT to ensure that new enhancements do not negatively impact existing functionalities.
- Ability to perform end-to-end testing to validate the system's overall functionality from a user's perspective.
- Familiarity with UAT automation tools and scripting languages to streamline testing processes and improve efficiency.
- Analyze UAT test results, preparing comprehensive test reports, and presenting findings to project stakeholders.
