Summary

Passionate IT/Software Developer with a robust academic background and a talent for creative problem-solving. Eagerly seeking opportunities to apply my skills and drive tangible impact on a company's success. Armed with practical experience gained through relevant coursework and internships, I am enthusiastic about embracing cutting-edge technologies and contributing to groundbreaking projects. Thriving as a collaborative team player, I possess the confidence to excel in fast-paced IT environments.

Experience

Full Stack Developer (Intern) • TechEfficio Solutions Pvt. Ltd(Hyderbad). (Mar 2023 - Sep 2023)

➢ Collaborated on real-time projects, Demonstrated proficiency in Java programming ,efficiently solving complex coding challenges.
➢ Assisted in optimizing codebase, resulting in a improvement in application performance.
➢ Actively participated in code reviews, ensuring code quality and adherence to best practices.
➢ Collaborated with the development team, identifying and resolving technical issues to maintain system stability.

Backend Developer Intern • iGeeks   **(Sep 2021 - Oct 2022)**

➢ Played a vital role in developing and maintaining backend systems, ensuring seamless data flow
➢ Successfully optimized database structures, improvement in system performance.
➢ Collaborated closely with the development team, proactively identifying and resolving technical issues to uphold system stability and reliability.
➢ Utilized agile methodologies to streamline development workflows and improve project outcomes.

Education

Bachelor of Engineering - BE • Bheemanna Khandre Institute of Technology, Bhalki   **Jun 2018 - May 2022**
(Computer science • Grade: 7.3)

PUC • Diamond independent PU Science College, Bhalki, Bidar   **Jun 2016 - Mar 2018**
(PcmCs • Grade: 79%)

S.S.L.C • **Gangamma borale high school**   Jun 2015 - Mar 201
(Grade: 88%)

Projects

- **Register & Login Logout using Spring boot**   **(Mar 2023 - May 2023)**
  - Developed a secure registration and login system using Spring Boot, Security, MVC, and Data JPA technologies.
  - Implemented password encryption and decryption functionalities using Spring Security for enhanced security.
  - Utilized Thymeleaf for seamless integration of front-end templates with the back-end.
  - Created a user-friendly interface for easy navigation and efficient logout functionality.

- **Artificial Intelligence Dietician**   **(Apr 2022 - May 2022)**
  - Implemented the Artificial Intelligent Dietitian using Android
  - Developed a user login, dietitian login, and admin login for the system
  - Addressed the issue of physical inactivity and unhealthy diets in different countries

- **Real time face detection**   **(Sep 2021 - Oct 2021)**
  - Developed and implemented cutting-edge face detection and recognition algorithms for image and video analysis.
  - Showcased strong passion for biometrics research by effectively contributing to the field's popular topic.

- **Student feedback system**   **(Oct 2020 - Nov 2020)**
  - Developed a project to rate and analyze college faculty performance
  - Reduced paper work involved in the process
  - Reduced burden of keeping and maintaining records related to faculty performance

Achievements and Awards

- **Full Stack java developement**   **(Feb 2023)**

 Certified in JSpiders,
I have demonstrated exceptional proficiency in various programming languages and technologies, significantly enhancing my ability to develop efficient and robust software solutions. Leveraging my expertise, I successfully optimized code performance, resulting in substantial reduction in application response time, thereby improving overall user experience. Additionally, I led a team in the successful implementation and integration of a complex project, achieving seamless functionality and meeting project deadlines, ultimately leading to client satisfaction.

Skills

Java, SQL ,Html, CSS, MYSQL ,NoSQL,Springboot
