PROJECTS

Adactin – Manual Testing

Description:

Using this system user can view and check for various rooms available and simultaneously book them by making online payment via credit card. The system calculates the total cost on booking the services. Since room bookings will be displayed in effective graphical user interface user will get to know which rooms are booked and how many rooms are available for booking. Using this application user can select the room according to his preference.

Roles and Responsibilities:

- Understanding the Requirements and Functional Specifications of the Project.
- Identified Test Scenarios required for testing
- Prepared and Executed Test Cases as per System Requirements.
- Defect Reporting and Tracking using Bugzilla
- Test Management (Test Case Execution and Defect Reporting).
- Extensively performed Manual Testing process to ensure the quality of the software.
