# RIYA GARG
## Frontend Developer

📞 +91 9953661342    @ riyapriyagarg@gmail.com    🔗 https://www.linkedin.com/in/riya-garg-210825194/

📍 Delhi, India

## SUMMARY

Experienced React developer with **1.5+ years** of hands-on experience in creating dynamic and interactive web applications. A profile track record of UI/UX designing, developing as well as testing complex applications.

## EXPERIENCE

### Software Development Engineer
**ZopSmart (Bangalore)-SDE 1**

📅 2022 - Present    📍 Bangalore

Contributed in internal project as well as built client (McAfee) project from scratch.
**My Responsibilities:**

- **Application Development and Deployment**: Designed, developed, and maintained React applications, ensuring successful deployment.
- **Bugs Resolution:** Proactively identified and **debugged** both production and non-production bugs, enhancing application reliability.
- **Problem Solving:** Resolved 3-5 technical issues daily, faced by the end-users showcasing self-reliance and expertise.
- **Client Knowledge Transfer**: Conducted client knowledge transfer (KT) sessions on React, providing comprehensive training in **React-Query** flow and **Axios** calls.
- **Interview Experience**: Conducted interviews for freshers and SDE1 candidates, evaluating and selecting potential team members.
- **Cross-Functional Collaboration**: Collaborated across teams to ensure code quality practices, building a culture of excellence.
- **Technical Proficiency**: Demonstrated expertise in **React** by seamlessly connecting our front-end user interface with the corresponding backend APIs.

## INTERNSHIPS

### JavaScript Intern
**Timidly**

- Developed mobile view of the company's website.
- **Tech Stack : Js, HTML/CSS , Bootstrap**

## EDUCATION

### BTECH in Computer Science
**HMR institute of technology and management**

📅 08/2018 - 07/2022

GPA
**9.08** / 10.0

### 10th & 12th
**Rukmini Devi public School**

- 10th (CGPA) -10/10
- 12th( Percentage) - 83%

## STRENGTHS

➕ **Understanding of CI/CD pipelines**

➕ **Proficient in interacting with clients, understanding their requirements within stipulated time.**

➕ **Good communication skills and effective team management**

## SKILLS

ReactJS   Javascript   HTML5   CSS

Bootstrap   ES6   Typescript   JSX

Java   React Query   Axios   Git   JIRA

Docker   React Hooks   Redux   DOM

Material UI (MUI)   React Unit testing

Jest   vscode   JWT   French (B2)

## PROJECTS

### TerranovaTools (for McAfee)

- A tool which enables users to **perform CRUD operations** on various entities directly from the user interface.
- Solely established client-side UI applications from scratch using **Docker**.
- Implemented several grids using **MUI** with advanced features like **filter, sorting, pagination** etc along with wizard design and drop-down selection support.
- Implemented **Multi-ENV** supports user to access any ENV data from any Env link.
- Used custom **CSS library** ie Pegasus
- **TechStack :** JavaScript, React , MUI , Docker, React Query , pure CSS , Jest , DOM manipulation.

### Hiring Motion

- A comprehensive **HR solution** designed to streamline various HR processes, including application and referral management, interview scheduling, resume shortlisting, and feedback collection.
- Implemented various **common components** to make code re-usable and improve code quality.
- Improved **unit test coverage** of the application.
- Developed diverse **React forms** tailored to meet various specific use cases.
- **TechStack**- JavaScript, React.js , MUI , Git , Axios.

### ULTRA (React CLone)

🔗 https://ultraclone.netlify.app/

- A desktop and mobile responsive react web clone.
- TechStack: React js , HTML/CSS , Media query
