A self motivated Software Engineer having problem solving capabilities and demonstrated experienced in solving data intensive problems.

SKILLS

Tools and Languages	Java, MS SQL Server, MYSQL, Oracle, Power BI,Git
Frameworks	Java Spring Boot
DevOps	Microsoft Azure(Beginner)
Industry Practices	Agile, Clean Code

TECHNICAL EXPERIENCE

SQL/Power BI Developer   09/2021 — **Present**
Tata Consultancy Services   *Pune, Maharashtra*

- Developed multiple business value KPIs by using PowerBI Functionalities and wrote complex SQL queries to fetch required distributed across multiple source tables. These KPIs help stakeholders to identify various issues at different stages of project lifecycle and tracking major reasons for SLA breached.
- Understand the requirements of the respective stakeholders and plant the sprint.
- Developed queries in SQL Server and T-SQL to create and use complex stored procedures and to facilitate efficient and meaningful data transformation.
- Presented key deliverables and valueable insights to stakeholders in monthly business review meetings.

PROJECTS

NID Reporting
- With this project we were aiming to create KPIs and Dashboards for stakeholders which could help them to make decisions and complete data centers deployment within the defined SLA period of 300.
- Fetched Required form of data from Azure Data Explorer by writing KQL scripts and embedding it PowerBI design visuals from proper data analysis.
- Automated the many manual processes using PowerBI,PowerApp and Power Automate data flows which saved manual efforts and data accuracy.
- Created complex SQL queries and stored procedures as well as DAX and measures to generate Meaningful PowerBI reports.

CERTIFICATION

- AZ-104: Microsoft Azure Administrator. Credentials   **2023**
- AZ-900: Microsoft Azure Fundamentals. Credentials   **2022**
- DP-900: Microsoft Azure Data Fundamentals. Credentials   **2022**

EDUCATION

Bachelor of Technology (IT), *University Of Pune*   **2018-2021**
CGPA : 8.41

ACHIEVEMENTS

- Awarded with Contextual Masters award for delivering complex automation solution   **2023**
- Helped team to win Star Team Award for delevering excellent services   **2023**
- Received On The Spot Award for the Outstanding contribution to the organisation   **2022**
- Received a Hall Of fame by jet.com,Invision,BitDiscovery through bugcrowd bug bounty program.   **2020-2021**
