PROFILE DETAILS:

- I am a highly skilled and motivated professional with over 6 years of experience in designing and developing web applications. My expertise lies in a wide range of technologies, including Vuejs3 HTML, JavaScript, Jquery and CSS. Throughout my career, I have consistently demonstratedmy ability to create robust and user-friendly web solutions that meet and exceed client expectations.
- In addition to my development expertise, I have gained valuable experience in Jasmine testing, an essential aspect of web application quality assurance. My proficiency in Jasmine testing has enabled me to ensure the reliability and performance of applications, contributing to an enhanced user experience.
- Moreover, I have actively participated in application release and support processes. My involvement in these areas has granted me a comprehensive understanding of the software deployment lifecycle and the ability to handle post-deployment challenges promptly and effectively.
- Throughout my career journey, I have contributed to a multitude of successful web applications, making a significant impact on the businesses I have worked with. My passion for staying up-to-date with the latest technologies and best practices has allowed me to deliver cutting-edge solutions that align with industry standards.
- As I continue to evolve in the field of web application development, I remain committed to utilizing my technical skills.

Our single-minded focus has been to make networking easier. Over the years, we've searched far and wide to figure how businesses connect and enable trade. That first interaction is usually fraught with the uncertainty of finding a potential partner vs. a potential nightmare. With this in mind, we've designed a robust set of tools to help companies generate leads, shortlist prospects, network with businesses from around the world and trade seamlessly.

Project Uplift NFP functions as a 501(c) (3) non-profit organization dedicated to homeless prevention, community development, and individual reintroduction into every day, productive society.
