CORE COMPETENCIES

●● Software Design & Development

●● Requirement Gathering & Analysis

●● Software Development Framework (SDF)

●● Agile / Scrum Methodology

●● Technical / Functional Specifications

●● Front-end Development

●● User Experience Design

●● Mobile App Development

●● Web Development

●● UI/UX Design

●● Cross-platform Development

●● Performance Optimization

●● Code Review and Testing

●● Responsive Design

●● Debugging and Troubleshooting

EXECUTIVE PROFILE

- Demonstrated expertise in front-end development for over 2 years, specializing in React Native, JavaScript, and ReactJS
- Spearheaded the development of multiple features in the My11Circle app, leveraging React Native, ReactJS, JavaScript, and Node.js to enhance the user experience
- Demonstrate proficiency in creating robust modules for the react-native mobile front-end using React JS, React Native, and TypeScript
- Possess expertise in React Native, JavaScript, ReactJS, HTML, Node.js, and Agile methodologies
- Enterprising IT professional with extensive experience in Software Development roles distinguished by commended performance in Object Oriented Programming
- Skilled in overall software development life-cycle involving requirement analysis, system study, designing, architecture, testing, coding, de-bugging, defect management, status reporting & documentation
- Skilled in end-to-end project management including scheduling with clients for iterative product development & delivery, balancing work distribution to meet project deliverables as per quality & time norms
- Stakeholder Engagements: gathering and understanding the requirements of stakeholders & clients at strategic levels and translating into project key deliverables
- Designed and implemented a software development process suitable for the company (mixture of Agile and Traditional Methodologies)
- Keen analyst with excellence in gathering and understanding requirements of clients & other multiple stakeholders (at strategic and tactical levels), followed by translation into functional specifications as well as provisioning of suitable solutions
- Independently handled the development and maintenance of a complex UI for Admin Game Configuration as the module owner of the Game Config portal in Play Games24x7
- Showcased exceptional leadership skills by successfully implementing WebView in the My11Circle App and resolving numerous deep link issues within the native layer of the My11Circle Android app
- Extensive expertise in utilizing React Router to develop Single Page Applications (SPAs) and hands-on experience with version control tools like Bitbucket

WORK EXPERIENCE

Software Development Engineer | Play Games24x7
Nov 2021 - Apr 2023

Responsibilities:
- Worked on the development of multiple features in the My11Circle app, leveraging React Native, ReactJS, JavaScript, and Node.js to elevate the user experience
- Pioneered the creation of modules for the react-native mobile front-end, ensuring code robustness with React JS, React Native, and TypeScript
- Took ownership of the Game Config portal, overseeing the development and maintenance of a sophisticated UI for Admin Game Configuration from a JavaScript perspective
- Engineered a robust proxy for My11Circle using Node.js, significantly enhancing the app's performance and security
- Spearheaded the integration of WebView into the My11Circle App, elevating its functionality and driving increased user engagement
- Successfully resolved numerous deep link issues within the native layer of the My11Circle Android app, resulting in enhanced user navigation and an improved overall experience
- Piloted the implementation of taxonomy events within the React Native UI thread of the My11Circle App, driving performance optimization and comprehensive data tracking
- Fostered collaboration within the team to successfully develop Single Page Applications (SPAs) utilizing React Router

Achievements:
- Successfully introduced WebView in the My11Circle App, enhancing the app's functionality and user engagement
- Fixed multiple deep link issues in the native layer of the My11Circle Android app, improving user navigation and experience

Software Developer Engineer (Contract) | Play Games24x7
May 2021 - Nov 2021

Responsibilities:
- Developed the carrom section in the internal portal of Play Games24x7, enhancing the user experience
- Refactored the modal layer for the My11Circle App, improving performance and user interaction
- Created an internal app to search for Docker URLs, streamlining the development process

Project Engineer | Wipro Technologies
Jun 2019 - Apr 2021

Responsibilities:
- Worked for Hamburg Commercial Bank on behalf of Wipro as an IBM BPM developer and Java Developer
- Modified existing software to correct errors, adapt to new hardware, and improve performance
- Designed, developed, and modified software systems using scientific analysis and mathematical models
- Acted as a critical resource between IBM and HCOB, handling failed events and tasks
- Provided 24/7 on-call support to ensure timely resolution of issues and prevent job failures

Summer Intern | Wipro Technologies
Jun 2018 - Aug 2018

Responsibilities:
- Worked on projects using the MVC Framework and C#
- Gained experience in agile methodology, version control, and collaboration
- Contributed to industry-scale projects, learning valuable skills in software development

FREELANCE PROJECTS

- **Food Delivery App**
  React Native + Redux, with the help of API context and Hooks

- **Weather App**
  Open Weather Map API
