EDUCATION:

REVA UNIVERSITY , BANGALORE BACHELOR OF TECHNOLOGY
IN COMPUTER SCIENCE

Aug 2015 - May 2019 | Bangalore

Agg. Percentage: 7.42

PROJECT:-

FICR (Facets Integrated Claims Repair) :

This project is all about secondary adjudication engine for Facets and the actions that cannot be done in facets get taken into FICR for review whenever Facets need secondary adjudication required on a claim ,it requests FICR application via PIE extension

1. **AO Tool**
2. **Facets Application**
3. **Oracle (OSFAC04D) environment**

AO Tool is being used to set the scenario for differen tprovider type,bill code,diagnosis code etc. and apply those override rules to the claim

Facets Application is being used based on user input calls PIE(pega interface) extenion and PIE call facets application and it determines wheather to override or not in facets level
