Professional Experience

Project Manager, Synopsys, Bangalore   Jan 2022– May 2023

- Managed 11 clients with an overall project evaluation of more than USD 7 million, mainly US clients.
- Successfully delivered more than 85% of projects/assessments on time within the agreed-upon acceptance criteria.
- Managed cross-functional teams with up to 25 members in the planning and implementation of multiple projects.
- Developed solutions and made recommendations based on an understanding of the business strategy and stakeholder needs.
- Influenced and negotiated to achieve business objectives and assisted in the development of a strategic plan.
- Provided input to the program strategy by analyzing current operations & challenges, researching best practices, and understanding industry trends.
- Managed financial forecasts and conducted ongoing reconciliation.
- Contributed towards a data-driven approach to manage work utilization, resulting in better cost-efficient processes and an internal transition to Jira to make the in-place processes more productive and proficient.

Project Manager, IBM / Kyndryl, Bangalore   Apr 2021 – Dec 2021

- Managed multiple end-to-end IT infrastructure projects, including the installation and configuration of storage, migrations from older systems to new systems, and creating backup & recovery solutions.
- Managed cross-functional teams in the planning and implementation of multiple projects.
- Identified project stakeholders and created a communication strategy.
- Drove project scoping, project charter, SOW (Statement of Work), services & solution planning, scheduling, budgeting, risk management, financials, resource administration, quality control, monitoring, managing changes, and closure.
- Accountable for creating and tracking actionable reporting, and managing work packages under WBS (Work Breakdown Structure).
- Developed reports for senior management for project updates and made recommendations for changes when needed.

Project Management Intern, Equens Worldline, France   Jun 2020 – Dec 2020

- Monitored and tracked project budgeting, resource planning, and project documentation as part of project governance. Assisted with decision-making on portfolios, programs, and projects by developing various work products.
- Developed strong cross-functional relationships with clients and stakeholders across different levels of the business. Managed 5 highly critical projects independently and worked with banking clients like SG and CDN.
- Coordinated with the business unit and communicated effectively within complex organizational environments, while overseeing a cross-functional team of 20 members responsible for systems, databases, networks, and system integration.
- Documented and presented the business processes and procedures for process standardization.

Software Engineer, Accenture, Bangalore   Mar 2017– Aug 2019

- Implemented a test management tool like Zephyr, which increased testing efficiency by 50% and saved time.
- Identified problems and created reports to submit to supervisors in the US. Wrote bug reports and submitted them to developers to correct issues. Prepared real-time updates on testing progress during client calls and design community meetings.
- Developed a system where an application is reviewed twice by two different individuals; this system has proven to be incredibly advantageous and has made the team much more productive.
