PROJECT DETAILS:

Healthcare Services Project

- Pharmacy Software Hybrid for Med Arbor Diagnostics
- Major Modules are User, Patient, Provider, Plan, Product and Sales
- Our Pharmacy software service sets us apart from all other pharmacy software vendors. We understand the healthcare industry's software demands and provide incredible solutions

Project 1 : (Medall Healthcare)

Project Name - Billing Application (UWIN,MCC and L2L)

- MedAll own Product Application for Diagnostic Billing Application
- We have User Role screens are Registration/Appointment, View Customer and Reports
- Already Visited Customer Contact details based on revisit Tab open in Registration page
- We have Lots of Billing Status mode such as Fully pay, Due, Discount and Not Billed
- Patient Transfer and Report Transfer from one Centre to Another Centre only for Radiology Test
- Admin Role Screens are Demography Update, Billing Cancel/Refund, etc.
- Billed wise Sent Mail and SMS which is based on Customer Details.

Project 2: UWIN Ref Doctor

- Doctor has been created while billing and flows into this application.
- Once doctor data has been received,doctor details must be cross checked (either approve or reject) and verified by the sales team and update the corrected details.
- Once all the data has been checked and verified that doctor must be pushed in all the circles for future billing.
- Pushed doctors will be able to view and export to excel option also given.

Project 3: IT Admin

- This application contains all the application basic request (view or update or insert) such as Uwin, HRMS, MCC, MPMS, Catsix,CAPEX,MCC,L2L,..etc
- We can able to provide access for discount appoval.
- Able to view employee attendance details.
- Able to provide login access for basic applications.

Project 4: Chola Food (Kaashiv infotech)

- This Project is based on client requirement.This application is accessible to everyone who wants to view and buy products.
- Customers can able to check the juice product details and check the reviews also.
- Client can send notification regarding their new offers.
- Customers can able to view the products which is added into the cart in grid view.

Project 5: Magical Library

- Customer can able to work on collecting customer details while issuing books.
- Customers can able to view the books which is added into the cart in the form of grid view and can give ratings.
- This project was completed within the schedule.
- Implemented dashboard shows the overall view of the library and shows the count how much is available,how much is already availed and how much is pending from some customers.

ACHIEVEMENTS:
- ✓ Trainee of the month award (Kaashiv Infotech).
