Career Objective

   As a seasoned MEAN (MongoDB, Express.js, Angular and Node.js) Stack Developer with 1 year of professional experience, I bring a wealth of expertise in full-stack development using this powerful technology stack. My strong command over the four key components of MEAN allows me to build robust, scalable, and efficient web applications that meet the specific requirements of client. With a keen eye for detail and a passion for creating exceptional user experiences, I am dedicated to delivering high-quality software solutions.

EXPERIENCE:

MEAN Stack Developer – Dealmoney Securities Pvt. Ltd/
(March 2022– Present)

- Working as a MEAN Stack Developer
- Worked on creating the web application of the stand alone software for the office users itself.
- Working on the SBO (Sub – Broker) website.This website keeps a history of all the details regarding the Sub Broker. The payout of sub-broker, his commission, details regarding their clients, all the trading history, adding new leads in different verticals, getting the data of the leads or the particular lead,etc.
- The link is as follows:
  1) partner.dealmoneyonline.com
  2) lms.dealmoneyonline.com

Key Skills and Responsibilities
- Full Stack Development: Building end-to-end web applications using the MEAN stack, ensuring seamless integration between front-end and back-end components.
- API Development: Creating RESTful APIs using Node.js and Express.js, facilitating data exchange between the server and client-side applications.
- Database Integration: Implementing MongoDB databases, designing schemas, and optimizing database performance for efficient data storage and retrieval.
- Front-End Design: Developing responsive and visually appealing user interfaces using Angular, enhancing user experience and engagement.
- Problem Solving: Identifying and resolving technical issues and bugs through comprehensive debugging, testing and troubleshooting techniques.

- Collaboration and Communication: Working collaboratively with cross-functional teams, including designers, project managers, and other developers, to ensure seamless project execution and timely delivery.
- Continuous Learning: Keeping abreast of the latest trends and advancements in MEAN Stack development, adapting to new technologies and best practices to enhance skills and stay at the forefront of the industry.
