Profile Summary

Highly skilled Software Tester with 5 years of experience in designing and executing automated test scripts, as well as performing manual testing across various software applications. Seeking a challenging position in a dynamic organization where I can leverage my expertise in both automation and manual testing to ensure the delivery of high-quality software products.

Technical Skills

- Expertise in Black box Testing, White Box testing, Functional Testing, System Testing, Integration Testing, Regression Testing, Exploratory Testing, SmokeTesting, Sanity Testing, Accessibility Testing, Mobile Testing and Compatibility Testing, Performance testing, Web testing.
- Strong knowledge of the Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Expertise in Automation tools such as Selenium - WebDriver.
- Expertise in Mobile Testing Tool – Appium.
- Expertise in Performance Testing Tool- LoadRunner, JMeter.
- Good knowledge of JAVA, SQL, MySQL,Jenkins, Manual Testing, Performance Testing, Automation and API Testing.
- Good knowledge of defect management tools like Bugzilla, JIRA, RADAR and Whackit.
- Sound knowledge of Cross browser testing tools like Lambda Test.
- Expertise in Manual test case preparation.
- Expertise in Agile Methodology.

Work Experience

1. **<u>February 2022 – April 2023</u>** (QA Test Engineer at "GCUBE IT Solutions", Mumbai)

Responsibilities:
- Developed and maintained automated test scripts using Selenium WebDriver and Java.
- Collaborated with the QA team to identify and prioritize test cases for automation, ensuring comprehensive test coverage.
- Created and maintained the test automation framework, implementing best practices and ensuring scalability and maintainability.
- Executed automated test scripts and analyzed test results, reporting defects using bug tracking tools such as JIRA.
- Developed and executed data-driven and parameterized test cases to ensure comprehensive testing coverage.

2. **<u>September 2019-January 2022</u>** (Software Quality Analyst at "Conscience Information Technologies Pvt. Ltd", Pune)

Responsibilities:
- Collaborated with project stakeholders to define testing objectives, scope, and deliverables, ensuring alignment with project requirements.
- Testing Android and iOS platforms and web applications using.
- Created and executed manual test cases, performing functional, regression, and user acceptance testing.
- Conducted thorough defect analysis, reported bugs using RADAR, and worked closely with the development team to ensure prompt resolution.
- Participated in daily stand-up meetings, providing updates on testing progress, identifying roadblocks, and suggesting process improvements.
- Conducted functional testing of mobile applications on iOS and Android platforms, ensuring the overall quality and functionality of the software.

3. **June 2018- September 2019- (**Manual Test Engineer at," Delphin Logic Technology", Pune)

Responsibilities:

- Executed manual test cases for web and mobile applications, ensuring comprehensive test coverage.
- Performed functional and regression testing to identify defects and ensure the overall quality of the software.
- Conducted thorough defect analysis, reported bugs using Bugzilla, and worked closely with the development team to ensure prompt resolution.
- Conducted compatibility testing across different browsers and devices.
- Participated in daily stand-up meetings, providing updates on testing progress, identifying roadblocks, and suggesting process improvements.

Education

- **July 2012 – June 2016**- Bachelor of Engineering in Computer.

Certifications

- **August 2016 – January 2017**- Completed Software Testing Diploma From "Mindscript", Pune.

Hobbies & Interest

- Solving Puzzles
- Reading Books
- Traveling
- Planting
